

Planet - Jupiter high safety shoe S3 black

Details

This shoe is extremely suitable in heavy working conditions. Thanks to the rubber outsole, this shoe offers the following advantages: resistant to 300 ° C (HRO), high anti-slip resistance (SRC), high puncture resistance, high chemical resistance.

The leather of this shoe is of very high quality and has been tested for 120 minutes of watertightness.

The lined leather water tongue provides extra protection and comfort.

The triangle closure ensures that no dirt remains in the closure.

The wide scuff guard ensures good protection of the leather on the forefoot which results in a longer life of the shoe.

Furthermore, this shoe has a moisture-absorbing lining and is provided with an extremely comfortable insole.

Complies with EN ISO 20345: 2011: S3 SRC.
