

**Details**

Arrow sneaker white.

The flying wing is a sneaker model shoe from Dunlop. The upper side is made of leather which is combined with a rubber outsole and an E.V.A. intermediate layer. This provides extra cushioning and comfort during use.

The sole is heat resistant up to 300 degrees C and super slip resistant (SRC). This makes this Dunlop shoe a real work shoe that offers comfort and protection when it is needed most.

**Properties**

- |                   |              |
